- Email: contact@amarrahoohospital.com
- Website: www.amarrahoohospital.com
- Location: New Delhi, India — Block A: Outpatient & Administration; Block B: Emergency & Inpatient

1. Purpose and Scope

This policy establishes controlled visiting hours for general wards and critical-care areas, protects patient privacy and rest, and supports infection prevention, patient safety and orderly hospital operations across Block A and Block B.

2. Policy Provisions and Numbered Clauses

- 2.1** General ward visiting hours are 10:00 AM–12:00 PM and 05:00 PM–07:00 PM. Visitors shall enter and leave within these published periods unless an authorized clinical exception applies.
- 2.2** ICU, NICU and CCU visiting hours are strictly 04:00 PM–06:00 PM. Only one visitor is permitted for a maximum of 15 minutes per visit, subject to clinical conditions and staff direction.
- 2.3** Visitors must obtain and display a visitor pass issued/controlled at Block A. The pass is for the authorized visit only and must not be transferred to another person.
- 2.4** Children under 12 years of age are not permitted inside ICU areas. Exceptions may be considered only where clinically or administratively authorized by the hospital.
- 2.5** Visitors shall perform hand hygiene as directed before entering patient-care areas and comply with infection-control instructions, protective equipment requirements and isolation precautions.
- 2.6** Outside food is not permitted for patients or visitors in restricted clinical areas unless specifically authorized by the treating clinical team or hospital staff for a documented clinical or operational reason.
- 2.7** Flowers and similar decorative items are restricted in ICU, NICU, CCU and other areas where staff determine that they may create infection-control, allergy, housekeeping or patient-safety concerns.
- 2.8** Visitors shall not touch medical devices, medication, lines, tubes, monitors or clinical equipment, and shall not interfere with treatment, nursing care or emergency response.
- 2.9** Photography, audio/video recording and disclosure of another patient's personal or clinical information are prohibited unless appropriate authorization has been obtained.
- 2.10** The hospital may suspend, shorten or deny a visit when required for emergency treatment, procedures, infection-control precautions, patient rest, privacy, clinical deterioration or other patient-safety reasons.
- 2.11** Exceptions to visiting hours may be authorized by the treating team or designated hospital authority for compassionate, clinical or end-of-life circumstances. Such exceptions do not create a general entitlement to extended visiting.

3. Step-by-Step Patient / Attendant Procedure

- Step 1.** Proceed to Block A and present valid identification or other information requested by reception/security.
- Step 2.** Obtain the applicable visitor pass and follow the staff instructions for the patient's ward or critical-care area.
- Step 3.** Before entering a clinical area, perform hand hygiene and use any required protective equipment.
- Step 4.** For ICU/NICU/CCU, enter only during 04:00 PM–06:00 PM and remain for no more than 15 minutes, with one visitor at a time unless staff authorize otherwise.
- Step 5.** Maintain quiet behavior, avoid crowding, and do not bring outside food or restricted items into the clinical area.
- Step 6.** Return/exit according to the visitor-pass instructions and comply with security or nursing directions.

4. Escalation, Restrictions and Contact

- 4.1** Failure to follow visiting rules may result in the visit being shortened, the visitor being required to leave, or future visiting access being restricted.
- 4.2** Any suspected infection-control breach, interference with patient care, abusive conduct, or unauthorized recording shall be escalated to nursing leadership, security, or hospital administration.
- 4.3** For urgent concerns during a visit, contact the ward/critical-care nursing staff first. For general assistance, contact Reception at +91 98765-AMAR-2.

Document Control: This policy is an operational hospital policy for use by patients, attendants, visitors and hospital personnel. Where applicable law, insurer terms, clinical judgment, or an individual patient-care plan imposes a stricter requirement, the stricter applicable requirement shall prevail.
